

Statewide Interactive Traffic Count Site Map attributes...

The following additional information is provided in the pop up box for each **traffic count location**:

- **Site ID**: Unique ID used to identify count sites (ex: 25-7C-086). Please reference the Site ID when requesting additional traffic information for a count site.
- **MDT Departmental Rte**: MDT department route naming convention (ex: N-5).
- **MDT Corridor Rte**: MDT corridor route naming convention (ex: C000005).
- **Description**: Description of the count site location, where we place our counters.
- **County**: County in which the count site is located.
- **Owner**: Agency responsible for conducting the traffic count.
- **Site Type**: Short-term count site or permanent ATR site.
- **ATR/WIM**: ID for the Automatic Traffic Recorder (ATR) or Weigh In Motion (WIM) sites. ATR and WIM sites collect traffic data year round from sensors imbedded in the roadway. If this field is null the site is a short-term (36 to 48 hour) count site.
- **Vehicle Class**: If this field has a 'Y' this means the count was set up to collect vehicle classification data. If the field is null the site was only set up to collect volume data.
- **AADT (Annual Average Daily Traffic)**: The (A) following the AADT indicates that the count was an Actual count taken for the year and the (E) following the AADT indicates that the count has been Estimated based on historical traffic count data. The (M) denotes a Manually entered number which is the same as an Actual count.

The following additional information is provided in the pop up box for each **traffic flow segment**:

- **MDT Department Rte**: MDT department route naming convention (ex: N-5).
- **MDT Corridor Rte**: MDT corridor route naming convention (ex: C000005).
- **Section Length (mi)**: Length of traffic flow segment in miles.
- **Site ID**: Unique ID used to identify count sites (ex: 25-7C-086). Please reference the Site ID when requesting additional traffic information for a count site.
- **Current AADT**: Annual Average Daily Traffic for that segment of road.
- **Commercial Number**: Number of commercial vehicles for that segment of road - FHWA Types 5-13.

The following additional information is provided in the pop up box for each **county**:

- **Total County AVMT**: Total Annual Vehicle Miles of Travel (AVMT) for each county.
- **Total MDT Rts AVMT**: Total Annual Vehicle Miles of Travel (AVMT) for MDT routes in each county. MDT routes include Interstate, NI-NHS, Primary, Secondary and Urban routes.
- **Total State Hwy Rts AVMT**: Total Annual Vehicle Miles of Travel (AVMT) for State Highway routes in each county.
- **Total Local Rts AVMT**: Total Annual Vehicle Miles of Travel (AVMT) for Local routes in each county.
