

BILLINGS AIRPORT ROAD & MAIN STREET Concept

NEWSLETTER #1

PROJECT OVERVIEW

Montana Department of Transportation (MDT) has kicked off a transportation study for the **Airport Road and Main Street intersection** in Billings, MT. This 13-month study will investigate transportation alternatives to improve operations and safety for all users at this major intersection. The project consists of two phases:

- **PHASE 1** is the transportation study to identify the proposed project for design and construction.
- **PHASE 2** includes the design and construction of the project.

The Airport Road and Main Street intersection is located roughly two miles northeast of downtown Billings, just north of MetraPark. The intersection's location is a critical junction for commuter, regional, and freight trips along the Airport Road and Main Street corridors. Designated as principal arterials, the two corridors connect recreation, residential neighborhoods (Heights West and East), low density commercial, and light industrial uses with downtown Billings and Interstate 90.

LOOKING FOR YOUR INPUT!

Public input is a key component to this project. An interactive web map survey has been developed to help collect input. Visit mdt.mt.gov/pubinvolve/blgairportmain and click on "Send a Comment" to complete the survey.

By submitting your information in the survey, you will also be able to receive important project updates.
